

DE VILLE PRESTIGE

More slender than ever before, the Third Generation of the De Ville Prestige has been introduced with all the emblematic DNA you'd expect, but with a comprehensive upgrade across the design. This new $40\ \mathrm{mm}$ model in stainless steel and $18\mathrm{K}$ SednaTM Gold is presented on a modernised Prestige bracelet. The domed silvery dial offers a crystal finish, along with Roman numerals and cabochon indexes, while on the inside, the Co-Axial Master Chronometer calibre ensures unrivalled accuracy at aii hours of the day.
