

SEAMASTER DIVER 300M

Our seafaring heritage started in 1932. Since then, we have set many depth records while accompanying explorers to the deepest places on Earth. Continuing that legacy, today's Master Chronometer models are tested and certified at the highest level by the Swiss Federal Institute of Metrology (METAS). This guarantees more accuracy, reliability and supreme resistance to magnetism from electronic devices, such as phones and laptops, keeping the Diver 300M as exploration-ready as ever.
