PRECISION

Our attention to detail is evident in everything we make. Case in Point: OMEGA's own Bronze Gold. A one-of-a-kind alloy enriched with noble elements such as 37.5% gold - hallmarked as 9K - as well as palladium and silver. It has a pleasing aesthetic and hue, which we faithfully replicated on the hands of this Seamaster 300. That's our uncompromising approach. That's OMEGA precision.
