

THE MOONWATCH IN WHITE

Inspired by its history of space exploration, the most iconic chronograph on Earth now has a white dial. The Speedmaster Moonwatch has borrowed its latest look from the colours of astronaut spacesuits, while adding a glossy lacquered finish for the very first time. The white dial and red touches are also a tribute to the ALASKA I prototype that OMEGA produced in 1969, creating an authentic link to the Speedmaster's pioneering past. Worn on a comfortable and vintage-style bracelet, this stainless steel Moonwatch shines the spotlight on a new era of adventure.
